Education

Chennai B.E. in COMPUTER SCIENCE AND ENGINEERING (CYBER SECURITY),
2022 – 2026 R.M.K. College of Engineering and Technology - CGPA: 8.45

Skills

Programming Languages: Java, python

Tools and Frameworks: Git, React, Docker, Jenkins

Problem Solving: Data Structures & Algorithms

Java framework: JPA, JDBC, Hibernate, Spring

BACKEND technology: Servlet, JSP,

Data management: MySQL, MONGODB

Internships

GradTwin Services(OPC) Private Limited Code Nerds Program

Currently focusing on learning and implementing scalable end-to-end web applications and modern data management strategies under the supervision of a mentor

Main Flow and Services Pvt Ltd

Learned Python programming and key libraries such as NumPy, Pandas, and Matplotlib, Scapy, socket enhancing my analytical and programming skills.

AI/ML Internship at YBI Foundation

Completed an AI/ML internship with practical work in **Regression, classification**, and NLP culminating in a spam email detection project leveraging pre-trained NLP models.

Projects

Language-Agnostic Static Code Analysis Tool (SAST) with Tree-Sitter

Created a high-efficiency AST Tree with OWASP/CVSS custom rule sets, improving analysis speed and detecting vulnerabilities such as hardcoded passwords, buffer overflows, and injection vulnerabilities.

Hybrid Ensemble-Based Network Intrusion Detection System with Real-Time Flow Analysis

Developed a real-time network security system using a hybrid ensemble of Random Forest and XGBoost models to accurately detect known and zero-day cyber attacks like DoS and brute-force.

Achievements

SkillRack: Solved 1,306 programming challenges and earned 13 certifications

TOEFL ITP (Institutional Testing Program) PBT scale

Computer Networks and Internet Protocols, Python for Data Science(NPTEL)

Finalist – CXO National-Level Hackathon (Reached the final round)

Oracle Certified Professional Java SE 17 (In Progress)
